NILES 1-A CORNER BEAD - ZINC

Niles 1-A Corner Bead Standard 2-5/8" x 2-5/8" - Zinc	Ft/Ctn	Ctns/Pallet
10'	300'	40

30 pcs/ctn

The Niles 1-A Corner Bead Zinc with a wing size 2-5/8" x 2-5/8", is used to reinforce external corners in Portland cement stucco applications. The 2-5/8" expanded flanges which can easily be flexed over irregular or uneven corners, allow for complete embedment of the entire bead, especially near the nose where strength is needed most. The solid metal nose provides rigidity for straight corners.

ASTM B69-87 - Standard specification for flat rolled zinc. Approximately 99% pure zinc

ASTM C1063 - Standard specification for installation of lathing and furring for portland cement-based plaster

ASTM C841 - Standard specification for installation of interior lathing and furring

ASTM C1861 - Standard Specification for Lathing and Furring Accessories, and Fasteners, for Interior and Exterior Portland Cement-Based Plaster
